

4-H TARGETING LIFE SKILLS MODEL

HEAD

MANAGING

Keeping Records

ScoringAg.com is a detailed recordkeeping system using web-based technology familiar to today's kids

- Easy-to-use point & click system allows quick data entry
- Complete data records, including:
 - ⇒ Quality assurance information
 - ⇒ Treatments
 - ⇒ Animal movements
 - ⇒ Transfer of ownership
 - ⇒ Judging
 - ⇒ Showmanship
 - ⇒ Placement in competitions
 - ⇒ A host of other activities
- Mere minutes of effort on the child's part for each activity will yield a comprehensive record of all accomplishments that he/she will be excited to display
- Easy upload of pictures
- All for pennies per record

Wise Use of Resources

ScoringAg allows user to see all resources individually so they can make better decisions about how to use each individual asset

Planning/Organizing

ScoringAg provides easy-to-read summaries to allow better planning and organization

Goal Setting

ScoringAg allows user to better analyze progress and set realistic goals by displaying exactly:

- When each commodity moves from place to place
- How long it stays at each location

THINKING

Critical Thinking

Detailed records allow user to:

- Track and analyze progress and goals
- Make decisions based on past performance and new data

Problem Solving

Moving commodities to the next user's location provides opportunity to:

- Work together
- Figure out how to overcome obstacles, such as the next user having paper records only

Decision Making

Seeing all entities in one summary gives user a complete overview so that he/she can make better decisions

Learning to learn

Easy-to-use, point-and-click system allows user to:

- Begin working quickly on records, learning more as they go
- Teach themselves
- See activities and possibilities for other business types that might handle the commodities in the future

HEALTH

BEING

Self-discipline

ScoringAg rewards the user who has the discipline to enter all data as it happens, since the user will:

- Spend only minutes at a time if the data is entered as the activities happen
- Have a greater sense of accomplishment when he/she is able to display the complete data on all the work he/she did
- Realize greater value when selling the commodity, since commodities with complete records are worth more money

Self-esteem

Users gain a sense of pride from keeping complete records of all his/her accomplishments

HANDS

WORKING

Self-motivation

User is motivated to enter as much data as possible, since:

- Commodities have more value with complete records
- User will be able to display a complete record of all his/her accomplishments

Teamwork

Moving commodities from user's location to another user's location gives the opportunity to:

- Work together in the process
- Think about other's needs, since the user must think about what data the next owner will need

Marketable Skills

ScoringAg increases the user's knowledge and experience in several areas:

- Agricultural industry and what happens to commodities when they leave user's possession
- Databases
- Good habits of recordkeeping and recording information
- Familiarity with web-based systems
- Awareness of traceback systems and their value

GIVING

Contributions to Group Effort

Keeping records of every activity it took to do bring a commodity to market or to win award increases user's awareness of:

- The entire group effort
- The user's contributions to the effort

Responsible Citizenship

Every person who touches an animal in the food chain is responsible to all of society for the food supply

- Proper use of our system encourages responsibility to society as a whole
- Using the system encourages quality assurance records
- Helps user obey laws and regulations by providing a clear record of compliance

HEART

RELATING

Conflict Resolution

Not every move from location to location goes smoothly—animals get sick, transport fails—ScoringAg allows:

- Opportunity to identify problems
- Users to resolve those problems

Cooperation

Traceback requires that everyone in the process participates fully in recordkeeping—ScoringAg enhances this cooperation by:

- Giving a clear record of who is involved
- Allowing users to participate easily
- Encouraging cooperation with laws and regulations that apply to everyone in the food chain

Communication

ScoringAg provides an easy-to-use system of recordkeeping, which:

- Provides a good means of communicating to the next owner exactly what has happened
- Teaches the value of good information in any communication
